

Amcor recognises its responsibilities as a leading global producer of packaging and packaging related products. The company is committed to managing its operations in an environmentally responsible manner. This means preventing pollution and achieving continual improvement in environmental performance through economically viable practices.

To ensure environmentally responsible behaviour is embraced as an integral part of our operations, we specifically undertake to:

- conduct operations in compliance with relevant local environmental legislation, regulations, licences and other requirements;
- set and review environmental objectives and targets;
- work to reduce energy consumption and waste produced per unit of product;
- communicate openly and constructively with our people and the wider community about our environmental practices;
- educate our people and contractors, ensuring the requirement for environmental responsibility is integrated into work practices, training and decision-making and is included in performance assessment.
