

# EnviroKraft™ Corrugated

Boxes made from 100% post-consumer waste

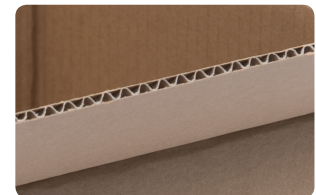

## About EnviroKraft™

Utilizing 100% post-consumer waste, EnviroKraft™ board is the sustainable alternative to virgin and recycled corrugated.

EnviroKraft™ is constructed from materials that have completed one full lifecycle, and have been disposed of by the consumer through recycling streams. These boxes are then manufactured into EnviroKraft™ 100% post-consumer board.

## Features and Advantages

- Fully customizable box sizes and styles, MPP can create a cartons solution to fit your unique needs.
- This high strength board protects goods from manufacture through to consumption, performing optimally throughout the most challenging of supply chains.
- EnviroKraft™ is perfect for communicating the environmental awareness of a business to its customers.
- Conventional print options available, such as gradients and screen printing.
- Soy based inks may be used to communicate environmental credentials.
- Able to fit seamlessly into existing packing lines.
- Financially economical, when compared to virgin board.
- Wide range of popular grades available.

# EnviroKraft™ Corrugated

Boxes produced using 100% post-consumer waste

EnviroKraft™ boxes made from post-consumer waste are reliable, cost effective and help to communicate an environmentally conscious message to customers.

How much can you save using 1 ton of unbleached corrugated (about 2,000 12x12x12 boxes)?

Impact Category/ Common Term	Unit	Virgin liners / semi-chem flute	Recycled liners (PCW) / fluting	% Difference	Difference
Wood Use	Tons	4 tons	0 tons	100% less	Saves about 17 trees*
Acid Rain/Algae Bloom	kg SO2 & PO4	3.64	2.63	38.4% less	Grey water from 424 loads of washing
Energy	MJ LHV	42402.85	15204.36	64.1% less	190 days of household energy use
Water	L H2O	68215.18	12538.94	81.6% less	5,600 household buckets
Land	Hectares	0.62	0.0023	99.6% less	Area of 480 parking spaces

\*Varies depending on the size/maturity, growing conditions and/or plantation management, and the location of the tree.

## A New World of Packaging

Manufactured Packaging Products (MPP) offers a wide range of high-quality custom and standard corrugated products to customers in the United States and Mexico. With multiple locations throughout California and facilities in Chicago and Houston, MPP takes your product from conceptualization through to design and printing. In addition to superior customer service, MPP's comprehensive range of capabilities includes state-of-the-art equipment, talented designers, bulk box capabilities, digital printing and much more. MPP is also ISO 9001 compliant which ensures exceptional quality is delivered every time.

A part of Amcor, the world's leading packaging company, MPP has access to global innovations and market knowledge, ensuring you are always provided with the most up to date, innovative packaging; EnviroKraft™ being a prime example of this.

To find out how we can take your packaging further, please visit our Manufactured Packaging Products website:
